

UNITED TO THE TOP

The 12th Annual Logistics and Transport Conference took place on November 5th in Belgrade

This year, the 12th Logistics & Transport Annual Conference set a new standard in the industry, gathering more than 500 participants from over 180 companies and 40+ sponsors.

This event was not just a business gathering – it was an opportunity to create new connections, exchange ideas, and enhance business opportunities, reaffirming the conference's status as a key event in the logistics and transport sector. The conference featured three simultaneous sessions and more than 30 inspiring lectures covering the latest trends and challenges in the industry.

This year, the 12th Logistics & Transport Conference was marked by exceptional innovation, and the two roundtables held in the sessions on Road Transport and Ports and Terminals enabled interactive discussions among industry experts. These roundtables provided deeper insights into the challenges and solutions shaping the future of transport and logistics.

THE OPENING SESSION

After the welcome coffee and the ceremonial opening by Marijana Jovin, **Nadežda Blagojeva** from **Stamh** had the honor of opening the session. Nadežda presented the application of automated systems in warehouses, emphasizing the key advantages of introducing automation into logistics.

After her presentation, **Biljana Todorovic** from **Logistar** explained in detail how automation is changing the fundamental processes of warehouse operations, contributing to greater accuracy, efficiency, and speed of operations. **Stevica Carapic** from **MSC** spoke about related topics of sustainability and digital transformation. Representatives from **Element Logic** and **Wagen International**, **Joachim Kieninger** and **Milojko Lazarevic**, presented the first automated warehouse for auto parts in Serbia, a project that brings greater efficiency and precision to warehouse management, opening new opportunities for the automotive sector. In the final part, **Vladan Mišić** from **Port of Constanta** presented the

strategic importance of this port in the context of the newly emerged geopolitical situation in the Black Sea, highlighting key infrastructure projects that will enable the port to maintain its leading position in regional transport. The session laid the foundation for further discussion about the challenges and opportunities that automation and digital transformation bring to logistics.

After the opening session, all attendees refreshed themselves at breakfast while visiting the booths at the 6th International LogExpo Fair, located in front of the conference rooms, which attracted exceptional interest. At this year's conference, 32 companies warmly welcomed visitors to their exhibition booths with promotional materials: **Tensor Group**, **LnConsult**, **CTP Invest**, **Logit**, **Mediterranean Shipping Company (MSC)**, **Schoeller Allibert Services**, **Lift Truck Co**, **Vecar Viljuškari**, **Global Engineering Technologies**, **Priority Freight LTD**, **Logistar**, **Gebrüder Weiss**, **Stamh**, **Storage Systems**, **Cycle**, **Delta Transportni Sistem**, **Element Logic**, **Port of Constanta**, **SDT Group**, **Adriatic Gate Container Terminal**, **Nelt Co.**, **M&M Miltzer & Münch**, **TRANSLOG-Transport & logistix**, **Skladišna Logistika**, **Port of Adria**, **Luka Bar**, **Dexion**, **Omni-Pro**, **Jungheinrich**, **Hörmann Serbia**, **DP World**, and **Trasing**. After individual meetings and friendly business conversations, participants continued the conference day in

smaller rooms designated for thematic sessions.

INTRALOGISTICS

At this year's conference, the session dedicated to intralogistics was opened by **Bojan Dobrota** from **LOGIT**, who spoke about the challenges in adopting new technologies and their real-world application in business. **Samo Bauman** from **Tensor Group** presented **Aura**, a modular platform for optimizing warehouse management. **Dušan Petkovic** from **Lift Truck Co** highlighted the importance of safety solutions for protecting pedestrians in industrial environments. **Petar Vukosavljevic** from **Delta Transportni Sistem** analyzed global trends in the cold chain and local solutions. **Željko Ceovic** from **LnConsult** and **Dušan Djordjevic** from **Lilly Drogerie** discussed the transformation process of the logistics system at Lilly Drogerie, from the initial idea to implementation and practical application.

After the coffee break, **Tomislav Ivkovic** from **OMNI-PRO** presented advanced solutions for order picking, focusing on automation and optimization of warehouse processes. **Milan Balaban** and **David Mari** from **Schoeller Allibert** discussed solutions for returnable packaging, while **Nenad Kosanic** from **Storage Systems** presented modern technologies in intralogistics. **Stevan Stolic** from **ICM Electronics** spoke about automated robotic systems for palletizing, and the session

was closed by Prof. dr. **Slobodan Antic** from the **University of Belgrade**, who presented **TRACE SOLUTIONS** and the implementation of MES digital technologies in manufacturing.

The session provided insights into the latest technological innovations in intralogistics, emphasizing the importance of automation, safety, and sustainability in business.

ROAD TRANSPORT

The session dedicated to road transport this year brought together experts and innovators from the logistics field, who discussed contemporary challenges and solutions for efficient, sustainable, and safe road transport management. The session was opened by **Dane Ajdukovic** from **SDT Group**, who spoke about the renting of commercial vehicles and the electric future of transport. **Kristina Dokic** from **Priority Freight LTD** presented **Air Cargo Transport** as a key element in time-critical logistics operations. **Nadi Kanaan** and **Aleksandar Živulovic** from **Negometal** discussed optimizing profitability on the road. **Aleksandar Jovanovic** from **Cycle** spoke about eCommerce and Fulfillment end-to-end solutions that enable complete digitalization of logistics processes in online retail. **Nikola Jevtic** from **Enpeks** raised the question “How can we embrace digitalization while preserving our values?” and explained how to build lasting relationships with customers, while **Ana Tucakovic** explained how digitalization is transforming the transport of dangerous

goods and its key benefits for the industry.

After the coffee break, lawyer **Siniša Pješčić** spoke about the impact of travel reporting in the EU on road transport, considering the legal aspects and potential legislative changes that could affect goods transport within the European Union. **Srdjan Jovanovic** and **Aleksa Milovanovic** from **BexExpress** presented Sustainable Logistics and the implementation of BEX's Green Agenda. **Sara Ilic** from **Logistika.biz** highlighted the impact of social media on the logistics and transport industry, emphasizing how digital marketing can help promote services and build a brand.

To conclude, a roundtable was held on the topic “Towards sustainable transport by optimizing transport operations.” The participants were **Nebojša Gvozdenovic**, owner and founder of **Infora Research Group**, **Miloš Vojinovic**, director of **Mobile Solutions**, and **Ivan Blagojevic**, sales manager at **Frotcom Serbia**.

The discussion focused on reducing CO₂ emissions, better capacity utilization, and the role of technologies in transport optimization. **Nebojša Gvozdenovic** presented route optimization software, **Ivan Blagojevic** presented case studies, and **Miloš Vojinovic** spoke about routing and fleet management.

It was concluded that digital solutions and the transition to electric vehicles represent key steps toward more

sustainable transport, while investment in infrastructure and strategic partnerships enable a more efficient and environmentally friendly system.

This session provided insights into key innovations and strategies shaping the future of road transport, with a focus on efficiency, digitalization, sustainability, and safety in logistics operations.

PORTS AND TERMINALS

The session dedicated to ports and terminals brought together experts and practitioners from the logistics industry, who discussed key challenges and innovations in this field.

The session was opened by **Branislav Mamic** from the **Vojvodina Chamber of Commerce**, who spoke about the role of the chamber in the logistics and transport industry. **Miroslav Antolovic** from **Konecranes** and **Marko Karamarkovic** from **Vecar Viljuškari** presented **Konecranes Lift Trucks**, designed to meet the specific needs of the industry. **Vuk Mijanovic** from **Nelt Co.** spoke about the role of dry port terminals in the end-to-end supply chain. Lawyer **Siniša Pjescic** discussed the impact of travel reporting in the EU on water transport, considering the legal aspects of transport via internal and international waterways.

Sedat Kara from **Port of Adria** presented **Port of Adria Bar**, which serves as a strategic maritime terminal for trade between the Balkans and the rest of the world. **Iva Roman** from **Adriatic Gate Container Terminal** spoke about the Port of Rijeka as Serbia's gateway to the Adriatic Sea, highlighting the logistical advantages of this terminal in international trade. **Kristina Dokic** from **Priority Freight LTD**, who had already impressed the audience in the road transport session, continued her presentation on ports and terminals, providing further insights into logistical challenges and solutions.

To conclude, a roundtable was held on the topic “Intermodality – the Key to Sustainable Transport Solutions.” The moderator of the discussion was **Branislav Mamic**, and the participants included: **Sanja Djurišić**, the president of the ports and terminals group at the **Serbia Chamber of Commerce**, **Ivan Milicevic**, development and operations manager for intermodal transport at **Nelt Group**, and **Slavoljub Jevtic**, the president of **Transport and Logistics Association**. The discussion covered key topics such as the role of intermodal operators in transport sustainability, challenges in using terminals for dangerous goods, the importance of river ports for intermodal transport in Serbia, and the advantages of linking with ports for import-export products. The importance of digital transformation in optimizing operations and the role of strategic partnerships in implementing sustainable transport solutions were also highlighted.

This session provided valuable insights into the development of key infrastructural connections between markets, with a focus on innovations in intermodal solutions, sustainability, and the integration of new technologies in transport and logistics.

In addition to the discussions, the conference also included a giveaway that generated a lot of excitement among the attendees. **Jungheinrich** made one lucky winner's day by presenting them with an AME 15 electric pallet truck. This modern device, now part of daily logistics operations, was handed over to **Miroslav Ristic** from **Hörmann Serbia**. The lucky winner was drawn by **Zlatan Lesjak**, and the prize caused great excitement among the participants. Congratulations to **Miroslav Ristic** and many thanks to **Jungheinrich** for this gift, which makes daily logistics operations easier!

Additionally, this year we exceeded last year's success once again, securing more than 150 B2B meetings that brought together key players in the logistics and transport industry.

After a series of inspiring presentations, visiting the Logexpo, enjoying socializing and food, we successfully concluded another conference day, full of new knowledge, business opportunities, and unforgettable moments. This day was dedicated to networking, learning, and creating new connections among professionals from all sectors of logistics.

COMMENTS

"Yesterday, our team from M&M Militzer & Münch Serbia had the pleasure of participating in the 12th Logistics and Transport Annual Conference by Logistika.biz, which gathered leading experts from our industry at Crowne Plaza Hotels & Resorts! This event was a great opportunity to exchange ideas, innovations, and strategies that are shaping the logistics of the future. We are excited to be a part of this dynamic industry and share our experiences with colleagues and partners. Together, we are building a more sustainable and efficient transport and logistics sector!" – **M&M Militzer & Münch Serbia**

"Great atmosphere, networking, excellent logistics practice, showcasing new technologies, many acquaintances and friends from logistics and manufacturing at the 12th Logistics and Transport Annual Conference. Over 500 participants, 50 exhibitors, and 40 presentations from logistics experts. Many thanks to Beologistika for the excellent organization, interesting topics, and even more interesting participants." – **Prof. dr Slobodan Antic, University of Belgrade**

"Our speaker, Dane Ajdukovic, gave an inspiring presentation at the 12th Logistics and Transport Annual Conference on the topic: 'Renting commercial vehicles and the electric future of transport.' Visitors had the opportunity to learn more about how renting can enhance their business and contribute to more sustainable transport in the future. We also presented the SDT E-mobility concept and the Fest E-box M, our lightweight electric commercial vehicle that is attracting more and more attention! Many told us that they discovered new perspectives for their business, and we were pleasantly surprised by the interest of companies in this topic. A special thanks to Logistika.biz for the invitation and excellent organization!" – **SDT Group**

"We are proud that our colleague, Milojko Lazarevic, logistics director, represented our company at the 12th Logistics and Transport Annual Conference at Crowne Plaza. Milojko spoke about key trends and innovations in logistics, and especially presented our robotic warehouse, which represents a step toward the future of the industry. We thank Logistika.biz and all participants for the inspiring discussions and exchange of experiences." – **Wagen International**

"It was a great pleasure to participate in the 12th Logistics & Transport Conference and present KONECRANES solutions to companies in Serbia. A fantastic opportunity to have discussions with leading companies in the sector and exchange ideas that shape the future of logistics and transport. A big thank you to the organizer for the excellent conference and all partners for the inspiring meetings!" – **Marko Karamarkovic, Vecar Viljuškari**

"Our colleagues attended the 12th Logistics and Transport Annual Conference on November 5th in Belgrade. They had the opportunity to hear great speakers, attend top sessions with leading experts, discover premieres and the latest solutions from the logistics and transport industry, as well as network intensively with key players in the sector." – **Pro Team**

"We are glad to have participated in this event, and our impressions are more than positive. It was a pleasure to share experiences and advice on the latest logistics trends and challenges in our industry. We look forward to meeting again!" – **Ana Aleksic, Pro Team**

"Koper and Graz together in Belgrade! Thanks to Logistika.biz, which organized the 12th Logistics and Transport Annual Conference, I had the opportunity to present Interagent Shipping Agency Ltd Co and its services. It was a unique opportunity to spend the day with the wonderful **Anita Roj**, representative of Tailwind Intermodal. Together, we presented the complete package of logistics solutions offered by Tailwind Intermodal and TAILWIND Shipping Lines to the market. I look forward to our cooperation and tackling new challenges ahead!" – **Višnja Šiljic, Interagent**

"The Port of Constanta is participating in the XII Logistics & Transport Annual Conference in Belgrade, with a presentation stand. The event is significant for the regional transport and logistics market, providing participants with opportunities to develop new business ventures and identify new areas of interest. During the conference, we promoted the Port of Constanta, a traditional partner of Serbian companies, and took part in B2B meetings. Discussions were held with key stakeholders from Serbia, with the purpose of attracting new cargo flows to the Port of Constanta, in view of establishing partnerships to encourage the opening of new shipping lines with calls in the Romanian ports and respectively of initiating multimodal connections." – **Port of Constanta**

"We never miss opportunities to network with industry colleagues, which is why STAMH Group and STAMH Serbia participated in this year's Logistics and Transport Conference in Belgrade on November 5th. In front of a large audience, we presented our latest model of automated and robotic systems for 2024. We are proud to have been part of this event, as together we can achieve so much more!" – **STAMH Group**

"With colleagues from Lift Truck Co, I had the opportunity to visit and participate in the 12th Logistics & Transport Conference, organized by Logistika.biz. Something completely new and different for me! We had a wonderful time!" – **Tijana Mitrovic, Lift Truck Co**

"The conference exceeded my expectations. The content you prepared and the atmosphere were excellent. I would like to take this opportunity to congratulate you and thank you for everything. I look forward to attending the next conference. See you next year!" – **Radivoje Djeric, Postal Traffic Agency of Bosnia and Herzegovina**

"It was a pleasure to participate in the 12th Annual Logistics and Transport Conference. Everything was organized at a high level. Well done!" – **Slobodan Filipovic, Dragon Maritime SEE**

The 13th Logistics and Transport Annual Conference, will be held on 6th November 2025! Prepare for the latest trends, inspiring discussions, and numerous opportunities to enhance your business. Also, don't forget about the 7th International Logistics Fair LogExpo, which will be an unmissable destination for all professionals in the industry.
